PRODUCT INFORMATION

Block

Tables / Classic Collection

Block arranges rounded, elongated tops at different levels, creating a layered composition above solid supports. Viewed from the side, the gaps between the surfaces are as important to the design as the outline of the tops.

A wood structure sits beneath the leather covering. Glass, ceramic and marble are listed surface choices, so contrasting or closely related finishes can change the relationship between the upper planes and the covered bases.

Care instructions

Dust the leather-covered frame separately from the hard top; apply any approved cleaner to the cloth, not directly to the covering, joints or edges.

Use coasters and heat-resistant mats on the top; lift objects instead of dragging them and protect the edges from knocks.

Follow the care instructions for the selected top finish and identify its material before using a cleaner.
