

Faceted Geometric Side Table

Tables / Sculptural Forms

A faceted base connects the upper and lower surfaces of this geometric side table. The black and white photographed versions make the angled planes visible in different ways, with the table shown as a separate piece beside seating. Its outline offers an alternative to a table on slender legs. Compare the top height with the adjoining sofa arm and leave space to move around the projecting corners.

Dimensions & configuration

Made to order. No fixed overall dimensions are published for this model.

Send your target dimensions or floor plan. Final dimensions and construction follow the approved drawing.

Options, colours & customization

Size & shape: discuss top length, width, height, diameter or outline. Dimensions follow the structure and approved drawing.

Materials & colour: request stone, wood, glass or another surface for review against the design and physical samples.

Base & finish: submit your preferred base style, metal colour and surface treatment for confirmation with the materials and quote.

Design & construction

A faceted base connects the upper and lower surfaces. Black and white versions emphasize the geometry, with a compact form shown as a separate table beside the sofa.

Care instructions

Dry-dust each facet and the upper and lower surface joints; do not spray cleaner into corners or seams.

Use coasters and heat-resistant mats on the top; lift objects instead of dragging them and protect the edges from knocks.

Confirm the ordered top material and finish; until then, use a soft, dry cloth only and avoid acidic cleaners, conditioning oils and polishes.

Before ordering

This sheet is for product selection. Custom dimensions, construction, materials and colours are subject to the approved samples, drawings and order.
