

Layered Stone Pattern Coffee Table

Tables / Geometric Forms

Rectangular surfaces overlap at different heights in this coffee table, creating a stepped arrangement rather than a single flat outline. The reference photographs show a stone pattern continuing across the top and sides; the exact surface material is a separate specification.

The intersecting volumes can be compared with straight-lined seating. Allow for the corners of both levels when planning the space between the table and sofa.

Dimensions & configuration

Made to order. No fixed overall dimensions are published for this model.

Send your target dimensions or floor plan. Final dimensions and construction follow the approved drawing.

Options, colours & customization

Size & shape: discuss top length, width, height, diameter or outline. Dimensions follow the structure and approved drawing.

Materials & colour: request stone, wood, glass or another surface for review against the design and physical samples.

Base & finish: submit your preferred base style, metal colour and surface treatment for confirmation with the materials and quote.

Design & construction

Rectangular surfaces overlap at different heights, with a stone pattern continuing across the top and sides. The intersecting volumes pair with a sofa with straight lines.

Care instructions

Dry-dust each level separately; lift objects to protect the corners and keep liquid out of the spaces between levels.

Use coasters and heat-resistant mats on the top; lift objects instead of dragging them and protect the edges from knocks.

Confirm the ordered top material and finish; until then, use a soft, dry cloth only and avoid acidic cleaners, conditioning oils and polishes.

Before ordering

This sheet is for product selection. Custom dimensions, construction, materials and colours are subject to the approved samples, drawings and order.
