PRODUCT INFORMATION

Cocoon Night

Beds / Design Collection

Cocoon Night surrounds the pillows with two generous padded headboard sections above a broad upholstered base. The divisions keep the outline easy to read, while the photographed configuration leaves the construction visually close to the floor.

The hardwood structure uses polyurethane and wadding padding, with leather at the rear of the headboard and a wooden slatted support. A braided version has additional metal-frame options, making the exact version an important part of the specification.

Dimensions & configuration

Headboard height 103 cm - 41".

Base height 35 cm - 14".

Metal legs height 6 cm - 2"

Measurements above refer to the documented reference configuration. Custom overall dimensions and arrangements follow the approved drawing.

Care instructions

Gently dust the headboard and bed-rail seams; follow separate care labels for bedding and the upholstered frame.

Dust the leather back of the headboard separately with a soft, dry cloth; keep it off damp walls and keep liquid out of the rear seams.

When tending the mattress, remove loose dust from the slats and keep the underside ventilated; do not spray cleaner at the slat connections.

On the woven version, gently dust between the strands without picking at gaps or pulling them; care for the frame and covering separately.
