

Milos dining tables

Tables / Classic Collection

Milos uses leather-covered curved supports beneath a broad dining surface, with round and rectangular configurations documented in the range. The central placement of the supports leaves the outer edge of the top visually clear.

Glass, ceramic and marble are listed surface choices. A revolving tray is an option for selected round configurations. Choose the plan shape around the room and chair layout first, then check the base position and any tray specification for that version.

Dimensions & configuration

Reference configuration T238B · Dining table: 200 × 120 × 75 cm (W × D × H).

Reference configuration T231B · Dining table: 240 × 120 × 75 cm (W × D × H).

Measurements above refer to the documented reference configuration. Custom overall dimensions and arrangements follow the approved drawing.

Options, colours & customization

Size & shape: discuss top length, width, height, diameter or outline. Dimensions follow the structure and approved drawing.

Materials & colour: request stone, wood, glass or another surface for review against the design and physical samples.

Base & finish: submit your preferred base style, metal colour and surface treatment for confirmation with the materials and quote.

Design & construction

Hard wood frame upholstered in leather.

Back lacquered glass top (black or white).

Ceramic top available in all customizing finishes.

Marble top available in all customizing finishes.

Metal base and inserts available in all customizing finishes.

Top' support frame available only in black matte finish.

Lazy Susan's top available in all customizing finishes, with aluminum revolving base.

Care instructions

Dust the rotating tray separately from the fixed top and keep debris away from the pivot; do not spray or lubricate the mechanism yourself.

Dust the leather-covered frame separately from the hard top; apply any approved cleaner to the cloth, not directly to the covering, joints or edges.

Use coasters and heat-resistant mats on the top; lift objects instead of dragging them and protect the edges from knocks.

Follow the care instructions for the selected top finish and identify its material before using a cleaner.

Before ordering

This sheet is for product selection. Custom dimensions, construction, materials and colours are subject to the approved samples, drawings and order.
