PRODUCT INFORMATION

Spider chair

Chairs & Stools / Design Collection

The Spider dining chair combines a slim tubular structure with a shaped padded back and seat. The exposed frame follows the chair's outline, leaving the lower body open and giving it a different scale from the larger lounge armchair. Its visible legs and back make it part of the table setting even when tucked in. Consider the frame finish alongside the table base rather than matching only the upholstery colours.

Dimensions & configuration

Seat depth 44 cm - 17".

Seat width 49 cm - 19".

Seat height 47 cm - 18".

Measurements above refer to the documented reference configuration. Custom overall dimensions and arrangements follow the approved drawing.

Options, colours & customization

Size: discuss seat height, width, depth and compatibility with your table. Custom dimensions follow the design and approved drawing.

Materials & colour: submit upholstery, timber or other surface preferences. Confirm colour and texture from physical samples.

Base & details: discuss base finishes and upholstery details. Each seat height and structural configuration is confirmed separately.

Design & construction

Metallic structure with moulded back padded in polyurethane foam. Seat in polyurethane foam with seat suspension in reinforced elastic webbing. Metal structure available in all customizing finishes. Stitching CUC 506.

Care instructions

Gently dust the upholstered seat seams; do not beat, wring or wet its foam insert.

Gently dust upholstered seams, edging and adjacent surfaces separately; keep cleaning liquid out of the seams.

Gently wipe exposed metal inserts, supports and fittings with a soft, dry cloth; keep liquid out of their junctions and avoid abrasive polishes.

Before ordering

This sheet is for product selection. Custom dimensions, construction, materials and colours are subject to the approved samples, drawings and order.
