PRODUCT INFORMATION

Bubble

Accessories / Classic Collection

Bubble places a series of glass shades along a slender vertical stem, creating a branching outline above a small round base. The shades turn in different directions, so the lamp reads as a composition from more than one viewpoint.

The listed materials are painted steel and blown glass. Position it where the glass forms can be seen alongside the seating; confirm the light source, electrical fittings and destination requirements rather than inferring them from the photographs.

Dimensions & configuration

Floor lamp total H. 70" - 180 cm.

Measurements above refer to the documented reference configuration. Custom overall dimensions and arrangements follow the approved drawing.

Options, colours & customization

Size & form: submit your preferred lamp dimensions, shade proportions and placement requirements for production review.

Materials & colour: discuss metal, glass or shade finishes and colours using physical samples.

Specification: confirm the light source, electrical specification and destination requirements before quotation.

Design & construction

Steel structures and details in painted nishings.

Murano' blown glass light'shade.

Care instructions

Switch off, unplug and let the lamp cool before cleaning; keep water out of the socket, switch and connections.

Gently dust the blown-glass shades with a soft, dry cloth and protect them from knocks; check the lamp instructions before removal or wet cleaning.

Dust the metal lamp body with a soft, dry cloth; avoid abrasives and unapproved polishes.

Before ordering
